

Landcare
Association of
South Australia

Caring for our land
in South Australia.

BIODIVERSITY

**INDIGENOUS
LAND MANAGEMENT**

PEOPLE AND VOLUNTEERS

**SUSTAINABLE
FARMING AND FISHING**

In partnership with:

Australian Government

**National
Landcare
Network**

**SOUTH
AUSTRALIA**

We encourage you to join the Landcare Association of SA (LASA) to enhance your landcare networks in South Australia.

LASA has a commitment to linking people with their landscapes and communities.

LASA was founded in 1999 and continues to take a leading role to reinvigorate Landcare in South Australia.

LASA contributes to the management of natural resources in South Australia with the development of Regional Landcare Networks, Regional Forums and Conferences to enhance networking, and as a member of the National Landcare Network.

LASA is actively involved in caring for our land in South Australia.

LASA supports and communicates with:

- **community groups** involved in biodiversity conservation, environmental protection or managing natural resources, and, in coastal rehabilitation, restoration and conservation.
- **groups of farmers or land managers** working on sustainable farming or improving natural resource management.
- **indigenous partnerships** involved in protecting or improving the environment.

LASA assists the community to manage and care for land in eight Natural Resource Management (NRM) Regions across South Australia:

- Adelaide & Mt. Lofty Ranges
- Alinytjara Wilurara
- Eyre Peninsula
- Kangaroo Island
- Northern & Yorke
- SA Arid Lands
- SA Murray-Darling Basin
- South East

Get involved. Make a difference in SA.

We need more members to make LASA representative. Join as a group or an individual.
